

# PECB Certified ISO/IEC 27002 Manager

## Why should you attend?

ISO/IEC 27002 Manager training enables you to acquire the necessary knowledge to support an organization in implementing and managing Information Security Controls based on ISO/IEC 27002. During this training course, you will also gain a thorough understanding of best practices of Information Security Controls.

After understanding all the necessary concepts of Information Security Controls, you can sit for the exam and apply for a “PECB Certified ISO/IEC 27002 Manager” credential. By holding a PECB Manager Certificate, you will be able to demonstrate that you have the practical knowledge and professional capabilities to implement and manage Information Security controls in an organization.

## Who should attend?

- Managers seeking to implement an Information Security Management System (ISMS) based on ISO/IEC 27001 and ISO/IEC 27002
- Individuals responsible for Information Security in an organization
- Information Security team members
- Expert advisors in information technology
- IT professionals
- Privacy officers
- Information Security officers

## Learning objectives

- Acknowledge the correlation between ISO/IEC 27002 and ISO/IEC 27001
- Understand the implementation of Information Security Controls in accordance with ISO/IEC 27002
- Develop the expertise to support an organization to effectively implement, manage and maintain Information Security Controls
- Understand the formulation and implementation of Information Security requirements and objectives

## Educational approach

- This training is based on both theory and best practices used in the implementation and management of Information Security controls
- Lecture sessions are illustrated with examples based on case studies
- Practical exercises are based on a case study which includes role playing and discussions
- Practice tests are similar to the Certification Exam

## Prerequisites

A fundamental understanding of ISO/IEC 27002 and comprehensive knowledge of Information Security.

## **Course Agenda**

**Day 1:** Introduction to Information Security controls as recommended by ISO/IEC 27002
